

DECEMBER

A Note from the Director:

We have made it to the end of 2020! Can you believe it? This month is super busy with school events, family traditions, etc; please remember to let myself or your child's teacher know if they will not be at school.

We are still doing our best to keep up with our school traditions as well. Our program, while not in person, will still be shared with you all as a special surprise. Our classroom parties will still be held as well on December 16th - same as the previous months, no visitors but we will take plenty of pictures (I have a special elf helping me with it this month 😊). Please be sure to check our parent board for all the details.

We will be closing early at 5pm on Christmas Eve, closed for Christmas day. This will be the same for New Year's Eve and New Year's Day. As always, if you need me, I am just a phone call or email away! Stay safe and stay healthy -Mrs. Lindsey

Christmas Activities

Our children have been practicing their program since the beginning of October! We cannot wait to show it off to all our families and friends with a special twist! We have a date for each classroom to come in dressed to impress to help with our surprise.

Dec 11th Talented Twos & Growing Three's
Dec 18th Superstars & Wonderkids

Please make sure to bring in hats, coats and gloves labeled and ready for a bit of fresh air throughout the winter. We have a weather advisory chart posted on the hall parent board. Thank you for your help!

Let's all stay Healthy

Our number one priority is to keep the children in our care safe and healthy. Please do not bring your child to school if, while at school, we will notify you and your child will need to be picked up within one hour. The Health Department's regulations prohibit the admittance of any child into a childcare center that exhibits any of the following symptoms:

- Fever 100° or higher
- Diarrhea-Vomiting
- Runny nose other than clear-Rash
- Lice
- Discharge from eyes or ears
- Any other communicable disease (chicken pox, pink eye, influenza, etc.)

If your child shows any of these symptoms, please keep him/her home for a minimum of 24hrs. If your child has seen a doctor and been on antibiotics for a full 24hrs and/or symptom free, he/she will be allowed to return to the classroom. Thank you for your help with this matter- we know how important your child's health is to you and we want to do our best to keep all the children in our care healthy while at school.
